Sprinkler Systems Installer

Sprinkler Systems Installer Apprenticeship

Apprenticeship is a career option that involves both classroom and on-the-job training. To learn the skills required of a Sprinkler Systems Installer in Alberta and to be issued an Alberta Journeyman Certificate, a person must find a suitable employer who is willing to hire and train an apprentice. For more information, please visit [Alberta Apprenticeship and Industry Training](#).

The term of apprenticeship for a Sprinkler Systems Installer is four years (four 12-month periods), including a minimum of 1,600 hours of on-the-job training and eight weeks of technical training in each of the first three years, and a minimum of 1,800 hours of on-the-job training in the fourth year.

Sprinkler Systems Installers are employed in the construction industry. Experienced Sprinkler Systems Installers may advance to supervisory positions or start their own businesses. Sprinkler Systems Installers fabricate, install, test, maintain, inspect and repair sprinkler systems in industrial operations, department stores, office buildings, hotels, schools, hospitals and residences to install wet and dry pipe sprinkler systems, carbon dioxide, chemical and foam extinguishing systems, stand pipe and hose systems and fire pump systems.
