

PCSS Post Secondary Spotlight

So, you want to be a...

Sound Engineer

Audio Engineering & Music Production Program

The only program of its kind which prepares students to enter any field in the audio industry. Diversification is key to employment in today's audio industry; the unique design of the program allows for career changes or transitions to different audio fields or paths.

There is only 1 program that runs every year starting every September and finishing in July. It is an 11 month (46 weeks) diploma program with over 1300 hours, 650 of which are hands-on experience in studios. There is a maximum enrollment of 68 students per year, creating true small class sizes with unprecedented access to faculty and facilities.

OIART's music classrooms are fully equipped studios designed to maximize student learning.

Experience a music production school that is fun, exciting and engaging with lots of opportunity for participation. Our interactive classes allow for sharing and exchanging ideas while collaborating on projects designed to uncover your hidden talents and potential. We constantly evolve and continuously improve the OIART curriculum to ensure we continue offering the best audio engineering & music production program available.
