

PCSS Post Secondary Spotlight

So, you want to be an...

Aircraft Maintenance Engineer

Aircraft Maintenance Engineers Technology Diploma

Play a crucial role in the aviation sector, ensuring the safety and reliability of aircraft operations. The Aircraft Maintenance Engineers Technology program is designed to equip you with the knowledge and practical skills necessary for a successful career in aircraft maintenance.

Work towards your Aircraft Maintenance Engineer “M” (AME) license. As a licensed AME, you’ll be entrusted with the maintenance, repair, and overall upkeep of various aircraft, such as general aviation planes, corporate jets, charter aircraft, transport-category aircraft, helicopters, and airliners.

Throughout this two-year diploma program, you’ll be immersed in a comprehensive curriculum that covers all facets of aircraft maintenance. The program is not just theoretical. Get hands-on training that prepares you for real-world challenges. Classes are at the Art Smith Aero Centre for Training and Technology at the Calgary International Airport.

Admission requirements

- at least 50% in Math 30-1 or 30-2 and
- at least 50% in English Language Arts 30-1 or 30-2

100% graduate employment rate
\$44,000 average starting salary

2 year program

If you are passionate about aviation, have a knack for problem-solving, and aspire to be part of a team that ensures millions of people travel safely, the Aircraft Maintenance Engineers Technology program could be the first step toward a fulfilling job or career in this essential industry.
