

So, you want to be a...

Agricultural Equipment Technician

Combine a rural lifestyle with a technically challenging career in the Agricultural Equipment Technician Apprenticeship.

Work with all the latest agricultural machinery as you learn how to repair and overhaul engines, mechanical and power shift transmissions, tractor hydraulic and electrical systems, tillage machinery, and spraying and harvesting equipment.

This four year apprenticeship consists of eight weeks each year of classroom instruction, and a minimum of 1,500 hours of on-the-job training. You will learn welding, engine fundamentals, basic electrical and hydraulics skills on agricultural equipment and more in your first two years. To follow, you will be trained in maintenance and repair of spraying equipment, advanced powertrains, off-road power trains, and seeding and precision farming systems.

In HIGH Demand!

Average Salary: \$80,789.00

Average Wage: \$38.15
