**Unlock your inner eco warrior!**

Looking to cultivate a deeper understanding of our natural world? Look no further than EVS 1210 Applied Ecology! Explore the intricate relationships between species, populations, communities, and ecosystems, and discover how to apply these principles to real-life scenarios like forest and grassland management. Beyond theory, this course challenges you to view environmental issues through a critical lens, and encourages you to brainstorm sustainable solutions. Come see the pivotal role ecology plays in shaping the world around us!
