About This Course

Did you enjoy taking Principles of Psychology I? If so, this course is right for you! Principles of Psychology II takes a deeper dive into exploring behaviour. This course can be used towards the completion of a Bachelor of Arts or Science in Psychology Degree program as well as can be taken as an elective for many other programs. Please refer to the program of interest to see the minimum grade requirement for this course.

Prerequisite: PSYC 260 or PSYC 1001

Course Description

Identify fundamental terminology, procedures, findings, and theories related to individual, social, and abnormal behaviour. Topics may include intelligence, problem solving, creativity, motivation and emotion, lifespan development, personality, psychological disorders and treatments, health, stress and coping, and social behaviour.
